VILLA DESCRIPTION

VILLA 1416 IN MYKONOS, GREECE

Directly above Super Paradise Beach with far reaching views to the south, Mykonos Villa is possibly one of the best houses we have seen for those wanting a super-cool, slick modern house. By marrying spare lines, glamorous materials, and a magnificent location, the architect/owner has created a light, airy and hip space with impeccable taste, for guests to gaze out over the horizon and experience the

calm, cool vibe of Mykonos at its best.

A wide terrace flagged with sandstone and a pool that stretches out to the horizon offer a fantastic view point over Super Paradise beach, with dining and seating areas under pergolas.

Inside, the main space is an open plan living area, with a sandstone floor, which extends to a wonderful kitchen and dining area. At one end of this space is a guest double bedroom with a stunning dark marble bathroom that opens onto the pool terrace. A central floating staircase with wooden rises leads up to two master bedrooms suites on the top floor. Both have french doors opening onto a shared terrace. The bathrooms are sumptuous, with oval free standing bathtubs, large shower rooms, twin wash basins (the master bathroom has silver basins.) Sliding doors hide built-in cupboards.

A separate guest apartment with its own independant entrance provides a fourth double bedroom with another glorious bathroom that opens onto the pool terrace.

To the rear of the main space is a study with wireless internet.

Accommodation:

4 double bedrooms with en suite bathrooms with bathtubs and showers

Guest WC

Study

Built in A/C, underfloor heating, sound system, mosquito nets at windows, wireless internet connection, Satellite TVs and DVD.
